## Thumbs Up for FruityFaces - Tried and Tested by 'Serious' Mums

Three 'serious' mums at [www.mumsandworking.co.uk](http://www.mumsandworking.co.uk), the UK's first online directory of part time jobs for Mums (and Dads) reviewed 'Tunda', our popular blue shark faced FruityFaces.

Unanimously they agreed that the product was practical to use, easy to clean, attractive to children and most importantly reasonably priced.

The mums appreciated that FruityFaces made fresh fruit 'fun' for children creating a positive image in general. The appeal is not only in its colourful package and toy like appearance but also for its clever way of getting kids to eat more fruit daily!

FruityFaces is fast becoming one of the UK's best health management tool for kids of all ages. It is one of the few products available that increases the consumption of fresh fruit.

Parents are especially keen to purchase our latest 'multi fruit' carrier – holding two pieces of fruit plus a cereal bar. Going out with children is easier now that the multi carrier offers a bit of variety for every one.
